Mrs Irene Mitchell

## *Winstons Sports*

Crayford Arrows Sports Club has a long and sustained relationship with Winstons Sports spanning many years. A club of our size supporting 23 teams, 300 players, from under 6 to adult, places high demands on the supplier that can provide consistently high quality products that give value for money. Our club members wear their kit with pride and the design has become a particular trademark of the club wherever we play at home in the South East of England or on our many ventures on tour throughout Europe. Club funds are increasingly difficult to come by these days so it is even more important for the future that our kits are made of durable long lasting and good looking material. Winstons Sports are fulfilling our needs in a highly competitive market. Our long standing relationship is testament to the high regard with which the company is held at our club
